

NEWS RELEASE

Copenhagen, 26 October 2009

WAYPORT the first choice for Europe's leading hotel group for the provision of guest internet services.

WAYPORT renews the REZIDOR HOTEL GROUP agreement. **WAYPORT**, the leading provider to REZIDOR HOTEL GROUP with over 150 Rezidor hotels from Iceland to South Africa via Europe and the Middle East using the WAYPORT guest internet solution, has renewed their agreement with the REZIDOR HOTEL GROUP.

"After 7 year partnership, **WAYPORT** continues to be a preferred partner for guest internet solutions. Radisson Blu were the first hotel chain to offer 'free to guest' internet services which has increased our market share and value-added to the overall customer satisfaction experience. Working with **WAYPORT** helped us to achieve that success," states Finn Schulz from the Rezidor Hotel Group.

WAYPORT are best known for being first-to-market with new services and products in the guest internet and wireless arena. Wayport have continuously been at the cutting edge of development and were chosen to provide a very different service for REZIDOR's new brand and flagship hotel, HOTEL MISSONI in Edinburgh.

"It is a tall challenge staying ahead of our competitors," comments Daniel Lister, Marketing Director at WAYPORT EMEA, "but we listen to our clients and watch human trends very well, allowing us to continuously develop products and services that both guests and hotels want and need." He continues: "Being a developer of our own proprietary software gives us a big advantage to move quickly. We take on the challenges we are met with in today's competitive market, and that drives us as a team every day."

About **WAYPORT**

WAYPORT have become the leading provider of guest internet and wireless services globally; the choice of many leading hotel brands including Marriott, Hilton, Radisson Blu, Park Inn, Hotel Missoni, Regent and Four Seasons.
